Un sistema semi-direzionale tanto versatile quanto eclettico risponde ad esigenze di ogni genere: cambia look a seconda dello stile, cambia forma in funzione dello spazio. Progetto e ricerca si fondono per rispondere ad alti standard di design e funzionalità, non dimenticando l'importanza del concetto di "accessibilità".

A semi-directional system, as versatile as eclectic, meets all kinds of needs: it changes look depending on the style, it changes according to the space. Design and research come together to meet the high standards of design and functionality, not forgetting the importance of the "accessibility" concept.

Un sistema semidireccional tan versátil como ecléctico responde a cualquier tipo de exigencia: cambia de aspecto según el estilo, cambia la forma en función del espacio. Proyecto e investigación se fusionan para responder a los elevados niveles de diseño y funcionalidad, sin olvidar la importancia del concepto de "accesibilidad".

Un système semi-directionnel à la fois polyvalent et diversifié qui répond à tous les types d'exigence: le look change en fonction du style, la forme change en fonction de l'espace. Conception et recherche s'allient pour répondre aux hauts standards de design et de fonctionnalité, en avoir toujours présent à l'esprit l'idée d'"accessibilité".

Senza troppo rumore ogni architettura può essere sottolineata da elementi tanto semplici quanto caratterizzanti per forme e colori.

Il minimal è stato definito eleganza assoluta descrivendo il non-stile come una dimensione di design personale, flessibile, oltre il tempo. Sempre attuale: ovunque sia il tuo spazio, qualunque sia la tua città, chiunque tu sia.

Without making too much fuss, every style of architecture can be emphasised with simple elements. That still manage to add character thanks to their shape and colour.

The minimalist style has been defined absolute elegance: non-style become an aspect of a personal, flexible design that goes beyond time. Always up-to-date: wherever your space, whatever your city.

Sin demasiado estruendo cada arquitectura puede destacarse gracias a elementos simples y a la vez distintivos debido a sus formas y colores.

El estilo minimal ha sido definido como la elegancia absoluta, describiendo al "no-estilo" como una dimensión de diseño personal, flexible, más allá del tiempo. Siempre actual: dondequiera esté tu espacio, cualquier sea tu.

Tout en douceur, chaque style peut être mis en valeur par des éléments simples, mais qui se distinguent par leur forme et leurs couleurs.

La sobriété est synonyme d'élégance absolue, expression d'un design personnel, flexible et intemporel. Toujours actuel, qui que vous soyez, quel que soit votre style et l'endroit où vous habitez.
