MOMENTI.

KID'S SPACE

febal casa

Ogni casa cresce, muta aspetto
e si confronta con bisogni sempre
nuovi. Interpretando le necessità
della vita quotidiana, la collezione è
pensata per trasformare la cameretta
dei bambini, la stanza dei teenager
e gli spazi di servizio di un'abitazione,
in ambienti multifunzionali e personali,
che cambiano il modo di interagire
con lo spazio casa.

Every home grows, changes its look
and adapts to ever-changing needs.
The collection interprets the demands
of everyday life and is designed to
transform kids' bedrooms,
teens' rooms and utility rooms into
multifunctional and personal spaces
that change the way people interact
with the home.

ColombiniCasa

Nelle camere dei più piccoli
detta legge la fantasia.
Contenitori, sistemi creativi
e accessori colorati aiutano
a trasformare anche le stanze
più contenute in veri e propri
regni, dove come per magia,
tutto è sempre possibile.

In kids' bedrooms, fantasy reigns supreme. Containers, creative systems and colourful accessories help to transform even the smallest rooms into genuine kingdoms, where as if by magic, anything is possible.

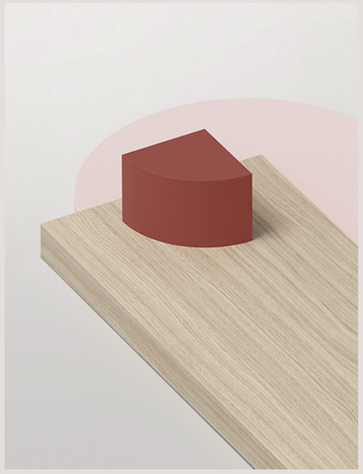
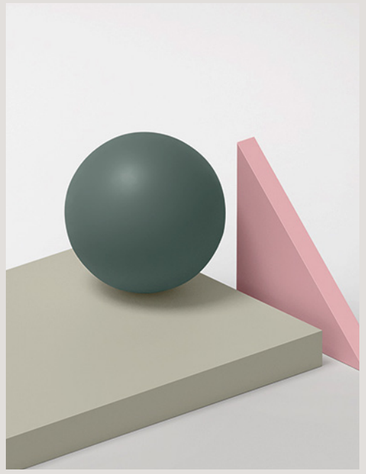
Color Pop-Up. A scuola di colore.

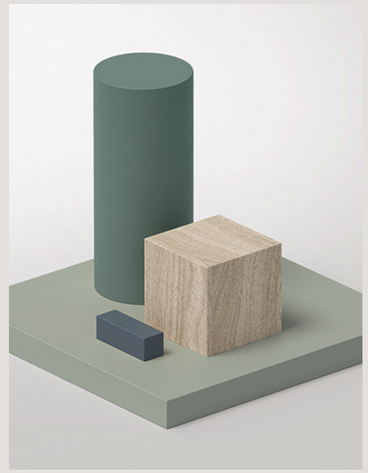




Colori freschi e vivaci danno ai più piccoli tutta l’energia per vivere le avventure in cameretta.

La palette cromatica è cresciuta. Nelle camere Kids il colore è dinamico, proprio come i bambini: agisce aggiungendo tridimensionalità agli spazi e fa apparire anche un ambiente dalle dimensioni ridotte molto più ampio, creativo e di carattere. Il colore può essere utilizzato per sottolineare intere nicchie oppure dettagli, può introdurre contrasti o ricreare atmosfere con tinte naturali. Parola d’ordine: sperimentare.

Colour Pop-Up. At colour school.
The colour palette has expanded. The colour in kids’ bedrooms is dynamic, just like children: it adds three-dimensionality to the spaces, making even a small room appear much larger, imaginative, and full of character. Colour can be used to highlight large niches or the smallest details, introduce contrasts or recreate atmospheres with natural hues. Watchword: experimentation.



Fresh, bright colours give children all the energy they need for plenty of adventures in the bedroom.

Camerette

Kid's bedrooms

Play, freedom and imagination need combinable, dynamic solutions that can be mixed and matched with utmost flexibility. And as children grow, they must be reinvented. Niches, modular storage elements, colours, custom compositions all serve a common purpose: to create a perfect bedroom today, but also tomorrow.

Gioco, libertà, fantasia richiedono soluzioni dallo spirito mixabile, dinamiche, che possano essere articolate e combinate con estrema flessibilità. E poi reinventate, con personalità, nelle fasi successive della crescita. Nicchie, contenitori modulari, colori, composizioni su misura servono a questo: a creare una cameretta perfetta oggi, ma anche domani.

11,5 m²

La sua camera.

Dove oggi inventa storie
e ripone giocattoli, domani
penserà a progetti e custodirà
segreti. Sarà sempre la sua
stanza: piccola ma studiata
nell'organizzazione degli spazi
e nella scelta degli elementi,
per soddisfare le esigenze
del bambino che è, ma
anche del teenager che sarà.
Una camera già pronta
a "crescere" con chi la occupa.

Their bedroom.
Where they invent stories
and keep their toys today,
is where they will study
and guard secrets tomorrow.
It will always be their room:
small but carefully planned
in terms of space and the
choice of elements, satisfying
the needs of the child that is,
but also the teenager that will
be. A bedroom ready to "grow"
with its keeper.

Salva spazio

Space saver

Spazio da riempire, spazio
da ottimizzare, spazio da vivere:
le esigenze di una camera bimbi
cambiano, dal giorno alla notte,
da un'abitudine ad un'altra.
Con le scrivanie a scomparsa
e i letti multifunzione lo spazio
si fa mobile, dinamico. Per
assecondare desideri e necessità,
e soddisfarli sempre al meglio.

Space to fill, space
to optimise, space to live:
the needs of a child's bedroom
change, from day to night,
from one habit to another.
With foldaway desks and
multipurpose beds, space
becomes mobile, dynamic.
To indulge desires and needs,
doing our best to satisfy them.

13 m²

La stanza dei giochi.

Più grande è la città,
più piccoli si sa sono gli spazi.
Eppure, per quanto contenute,
in queste camerette c'è davvero
tutto quello che serve a rendere
felice un bambino. Studio, gioco,
nanna: i momenti della giornata
cambiano e lo spazio camera
si trasforma insieme a loro.

The playroom.
As we all know, the bigger
the city, the smaller the spaces.
And yet, compact as they are,
these kids' bedrooms have
everything a child needs
to make them happy.
Study, play, sleep: as the time
of day changes, so too does
the bedroom space.

Castelli & Happy

Bunk beds and Happy

Dividing. And sharing.
When the family grows
or when the home's doors
open to sociability, it's time
to smartly reorganise the kids'
bedroom space. With bunk
beds that can be personalised
in different configurations.
To optimise and to welcome.
To make "two" a one-of-a-kind
experience.

Dividere. E condividere.
Quando la famiglia cresce
o quando le porte della casa iniziano
ad aprirsi alla socialità: è quello
il momento di riorganizzare in modo
intelligente lo spazio camera bimbi.
Con i letti a castello, personalizzabili
in tante configurazioni diverse.
Per ottimizzare e per accogliere.
Per rendere "due" un'esperienza unica.

12 m²

La mansarda.

Vieni, saliamo!
Una cameretta per due
nel sottotetto è un intrigante
regno di magia.
I trucchi più originali?
L'armadio mansardato,
il componibile che si trasforma
in scrivania e l'immancabile
letto a castello.

The mansard.
Come on, let's go up!
A bedroom for two in the attic
is an enticing magical realm.
The most creative tricks?
The pitched roof cut wardrobe,
the module element that
transforms into a desk
and the ever-present bunk bed.

Ponti & Soppalchi

Overhead structures and platform beds

Toys, books, clothes and accessories take up a lot of space in a kids' bedroom. Overhead wardrobes and loft beds give children room to play, but also room to store all their precious belongings. Objects that might last for a few days or an entire childhood. It's nice to have a place for everything. And to always find everything in its place.

In una cameretta bambini lo spazio non è mai abbastanza: giocattoli, libri, vestiti, accessori. I ponti e i letti a soppalco regalano ai piccoli spazio per giocare in libertà, e insieme spazio per accogliere tutte le loro cose. Oggetti che dureranno il tempo di qualche giorno oppure quello di un'infanzia intera. È bello avere un posto per tutto. E ritrovare sempre tutto al suo posto.

15 m²

La casa al mare.

Di nuovo qui, di nuovo felici. Nella cameretta dell'appartamento al mare soppalchi e letti ponte ricreano l'atmosfera di spensieratezza del tempo vacanza. E insieme quella sensazione di rassicurante solidità: dietro le ante gli oggetti di sempre, quei ricordi speciali che fanno sentire a casa.

A home by the sea.
Here again, happy again. In the bedroom of the seaside apartment, loft and overhead beds recreate the carefree atmosphere of holiday time. But also a firm sense of reassurance: behind those doors are the same objects as always, special memories that make you feel at home.

Rispetto dell’ambiente

Respect for the environment

Economia circolare
Produciamo strutture e ante in nobilitato costituite da pannelli ecologici provenienti da fornitori certificati FSC® che utilizzano legno pre e post-consumo a cui viene data una seconda vita in virtù di un’economia circolare che si autoalimenta, senza andare a intaccare il nostro patrimonio forestale.

Circular economy.
We produce melamine-faced structures and doors consisting of ecological panels produced by FSC® certified suppliers who use pre- and post-consumer wood, which is given a second life thanks to a self-perpetuating circular economy, without impacting our existing forests.

Materiali eco-friendly
Utilizziamo vetro e alluminio, riciclabili all’infinito per realizzare prodotti resistenti e di grande impatto estetico, e PET per superfici sicure che non rilasciano alcuna emissione tossica durante il ciclo di produzione e utilizzo.

Eco-friendly materials.
We use glass and aluminium, infinitely recyclable materials to develop resistant products with a high visual impact, and PET for safe surfaces without toxic emissions either during production or use.

Durabilità dei prodotti
Progettiamo prodotti con una maggiore vita utile per ridurre i rifiuti e offrire alti standard qualitativi.

Product durability
We design products that last longer to reduce waste and offer high quality standards.

Attitudine green-living
Abbiamo azzerato l’utilizzo della plastica negli uffici e nella produzione installando distributori d’acqua e recuperiamo tutti i rifiuti che produciamo con la nostra attività industriale.

Green-living attitude
We have eliminated the use of plastic in our offices and production department by installing water dispensers, and recover all the waste we produce through our industrial activities.

Innovazione
Siamo sempre alla ricerca di materiali e materie prime uniche che ci permettono di proporre sul mercato prodotti di alta qualità dal design distintivo. Abbiamo introdotto un sistema di intelligenza artificiale che pianifica la produzione, massimizza la produttività e facilita le operazioni di logistica e smistamento riducendo, in maniera significativa, gli sprechi.

Innovation
We are always on the lookout for unique and raw materials allowing us to offer the market high-quality products with a signature design. We have introduced an artificial intelligence system that plans production, maximizes productivity and facilitates logistics and sorting operations by reducing waste significantly.

Tecnologie green
Scegliamo materiali naturali al 100% resi straordinari da processi innovativi come la tecnologia di sinterizzazione che permette di creare pietre ceramiche senza l’utilizzo di colle e sostanze inquinanti. Abbiamo adottato l’utilizzo di vernici bio certificate Greenguard che garantiscono basse emissioni e una migliore qualità dell’aria negli ambienti domestici.

Green technologies
We chose 100% natural materials with an excellent performance from innovative processes such as sintering technology which allows ceramic stone to be created without using adhesives or polluting substances. We have adopted the use of Greenguardcertified organic paint that ensure low emissions and better air quality in home environments.

UNI EN ISO 14001
Abbiamo certificato il nostro sistema di gestione ambientale in conformità agli standard alla norma UNI EN ISO 14001.

UNI EN ISO 14001
We have certified our environmental management system in compliance with standard UNI EN ISO 14001.

Diagnosi energetica
Monitoriamo costantemente i consumi totali e definiamo azioni di miglioramento sistemico per ottimizzare il nostro impatto energetico.

Energy diagnosis
We constantly monitor our total consumption and define systemic improvement actions to optimise our energy impact.

Imballaggi
Impieghiamo solo cartoni realizzati con carta riciclata, riducendo progressivamente l’uso della plastica per sostituirla completamente con materiali green.

Packaging
We use only boxes made of recycled paper, gradually reducing the use of plastic, to be completely replaced with eco-friendly materials.

Logistica interna
Abbiamo ottimizzato tutte le movimentazioni all’interno dell’azienda per ridurre al minimo lo spreco di risorse energetiche e la produzione di CO_2.

Internal logistics
We have optimised all internal company logistics to reduce energy wastage and CO_2 production to a minimum.

Ottimizzazione degli spazi
Riduciamo lo spreco dei materiali da costruzione ottimizzando gli spazi con le nostre soluzioni di arredo che si adattano alle diverse architetture grazie alla loro ampia modularità e personalizzazione.

Space optimisation.
We reduce building material waste by optimising spaces with our own furniture solutions, perfectly adaptable to different architectures thanks to their extensive modularity and customisation.

Trasporto
Organizziamo le spedizioni ottimizzando gli spazi e i percorsi delle consegne per ridurre le emissioni di CO_2 sul pianeta.

Transport
We organise shipments by optimising space and delivery routes to reduce CO_2 emissions on the planet.

Progetti Speciali
Aderiamo al Furniture Pact, un progetto ideato dal Sustainability Lab di SDA Bocconi School of Management, che mira a supportare le aziende della filiera del legno-arredo verso l’adozione di modelli gestionali sempre più sostenibili.

Transport
We are joining the Furniture Pact, a project conceived by the Sustainability Lab of SDA Bocconi School of Management, which aims to support companies in the wood-furniture supply chain toward the adoption of increasingly sustainable management models.
